

(a) $f_n = \delta_{n,0}$ **Real space f_n**

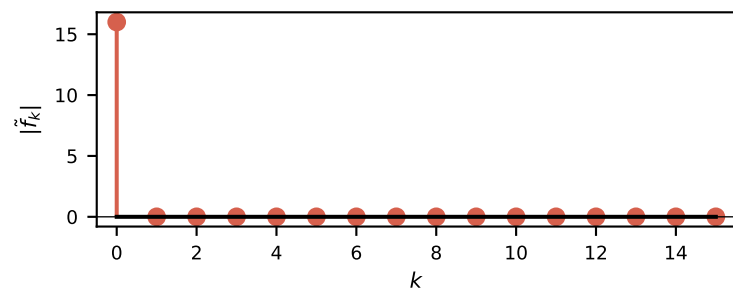

$|\tilde{f}_k| = 1$ **Frequency space $|\tilde{f}_k|$**

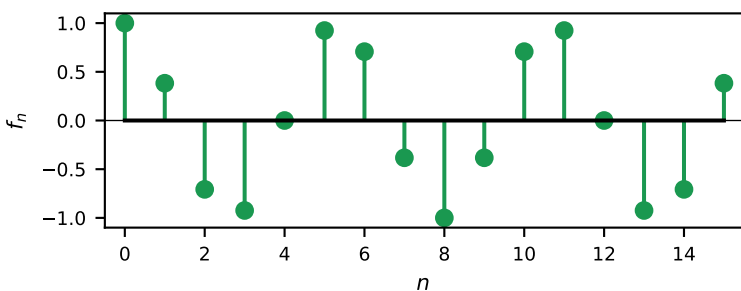

(b) $f_n = 1$

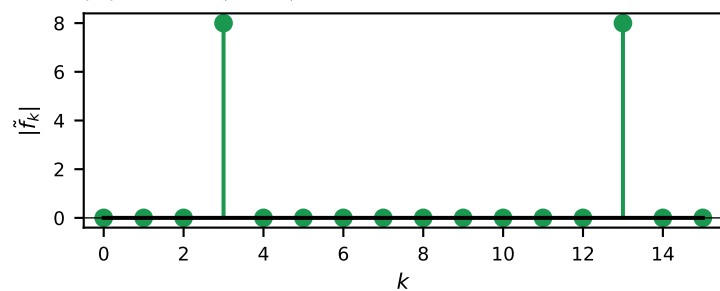

$|\tilde{f}_k| = N\delta_{k,0}$

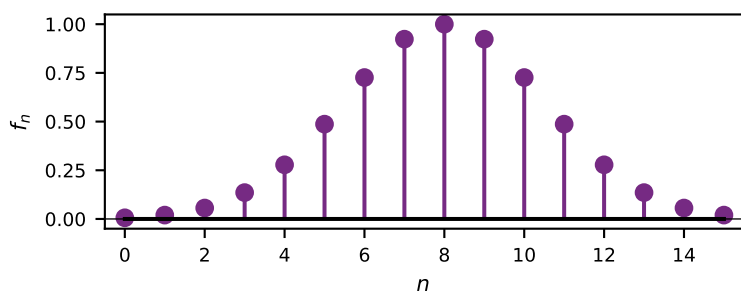

(c) $f_n = \cos(2\pi \cdot 3 \cdot n/N)$

$|\tilde{f}_k| = (N/2)(\delta_{k,3} + \delta_{k,13})$

(d) Gaussian ($\sigma = 2.5$)

Gaussian in k
